How wholesale works with Amigo

1 • Activate your partnership

Medical infrastructure — licensed providers, pharmacy relationships and your portal — can be live in 24–48 hours.

2 • Prescribe through the portal

Your patients are evaluated by licensed clinicians and every order is prescribed through your branded experience.

3 • We compound and ship direct

503A/503B partner pharmacies fill each order and ship straight to your patient's door under your brand.

4 • You keep the margin

You buy at wholesale and set your own retail. No revenue share — the spread between the two is yours.

Wholesale pricing lives in the partner price book.

Every formulation in this catalog ships with your cost and suggested retail in the gated partner price book. Unlock it at amigo.springtrainingmd.com/price-book or bring your questions to an intro call: amigo.springtrainingmd.com → “Book an intro call”.
